Subject: RE: Please continue to support 7E7

Dear Sandra:

Thanks for e-mailing me expressing your support for Boeing. I appreciated the information you provided on the 7E7 project, and I value your perspective on this issue.

Like you, I believe we must continue to maintain Washington's business environment to foster economic growth and to make our state an attractive location for businesses like Boeing. The Boeing Company is an important piece of our state's economic puzzle providing jobs not only to its employees but to thousands of individuals throughout our state whose jobs are impacted by its presence. While I believe we must continue to work for a diverse economic foundation, legislative efforts to retain the Boeing Company in our state should be a priority. Please be assured that I will continue to work for a stronger and more welcoming business environment in our state.

Again, thanks for your e-mail regarding the Boeing 7E7 project. Please contact me whenever I can be of service.

Sincerely,

Tracey J. Eide

State Senator

30th Legislative District
