Norm Dicks, the Dean of the Washington State Congressional delegation, has built a well-deserved reputation as a seasoned and thoughtful lawmaker who's never forgotten where he's from and what he stands for. And as his record clearly demonstrates, Norm Dicks delivers.

Whether you reside in Tacoma, Bremerton, or in one of the many communities along the Olympic Peninsula, the legacy of his leadership is apparent.

Revitalized business districts, road and highway improvements, safe and affordable housing and a determined and constant commitment to restore our threatened salmon runs and protect Hood Canal offer further evidence that Norm Dicks is a leader we can trust and count on.

Congressman Dicks, the son of a Bremerton Shipyard worker, has never lost sight of the fact that good jobs support healthy families. He's been a consistent and tireless advocate for economic development programs that encourage innovation and economic growth.

Today, as our economy continues to improve, he also understands that the next generation must be prepared for the challenges that lie ahead. Twenty-first century jobs require twenty-first century skills. That's why Congressman Dicks continues to work for the educational opportunities we need to remain competitive in the global marketplace.

And as our voice in the other Washington, we can rely on Norm Dicks to put his experience to work for us in the ongoing effort to ensure that our state's precious natural heritage and unique resources are protected and managed—not for temporary short-term gain, but with the future in mind.

Finally, whatever the problem and wherever it may be, Norm Dicks recognizes the importance of ensuring that our nation's military forces are effectively trained and properly equipped when defending our national interests.

Norm Dicks, our voice in Congress, would appreciate your continued support.
