**Our heroic service members are executing Operation Epic Fury with unmatched skill, lethal accuracy, and unyielding courage to dismantle the world's leading state sponsor of terrorism once and for all:**

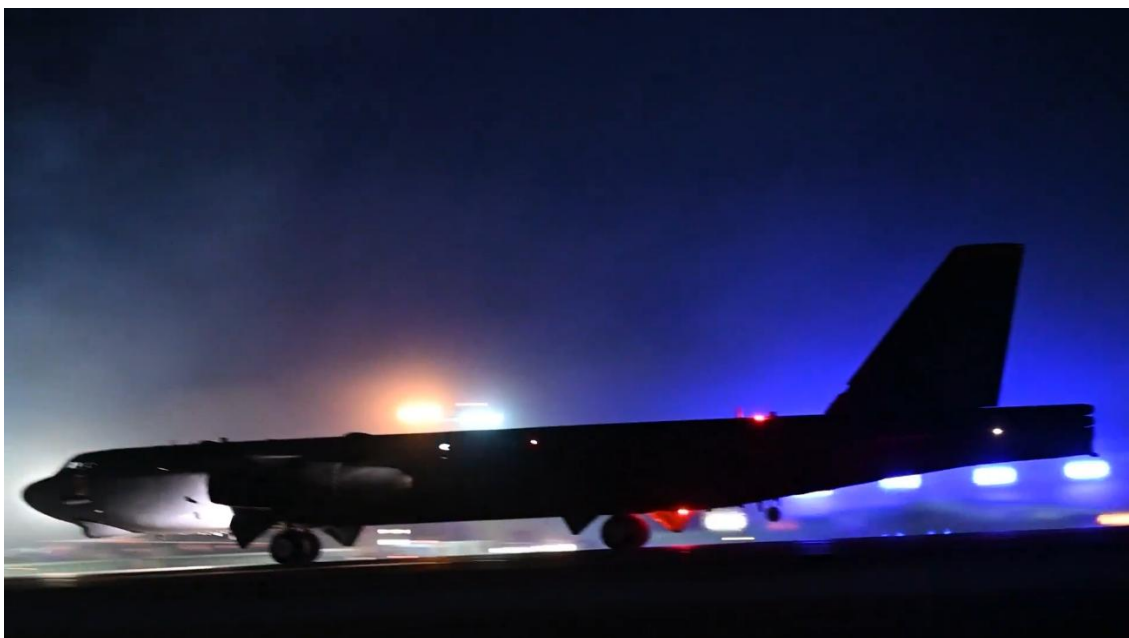

- Thousands of high-value targets obliterated, including Iranian command centers, headquarters, air defense systems, missile sites, production facilities, launch platforms, and airfields across the country.
- Major destruction of Iran's naval assets, including its ships and a key submarine, ensuring no hostile Iranian vessel can threaten vital waterways or allies.
- Severe degradation of Iran's offensive missile arsenal, production capabilities, and other infrastructure to prevent Iran from ever acquiring nuclear weapons.

These overwhelming victories demonstrate the effectiveness of President Trump’s strategy: confront evil to protect American lives, restore regional stability, and make the world safer.
